PROJECT EXPERIENCE

Habit Tracker — Web Application

- Full stack project using a Java and Spring Boot back end with a ReactJS front end.
- RESTful API application

WORK EXPERIENCE

Hair Stylist — JCPenney Salon, St Louis, MO

January 2018 - January 2019

- Marketed myself online and in person to gain clientele and establish relationships
- Gained great concentration through the balancing act of providing an intricate service while flowing freely in conversation with my clients.
- Helped build my artistic and creative side in addition to my logical way of thinking.

Loan Processor — Trust Capital, LLC, San Diego, CA

January 2017- December 2017

- Hired on initially as a secretary for Trust Capital, a startup financing company. Managed calls, organized meetings, and created overall harmony in the workplace.
- Promoted after 3 months to a Loan Processor. Worked with the credit manager to bridge the gap between our banks and clients.
- Became the company recruiter, scouting for talent via LinkedIn and conducted phone interviews.

Holistic Beauty Educator — Whole Foods, St Louis, MO

March 2015 - December 2016

- Educated customers on a holistic approach to personal wellness.
- Helped with front end duties such as ringing out customers and cleaning.
